DETAILED ACTION

1. Applicant's amendment and arguments have been fully and carefully considered. The reply filed on August 22, 2007 is not fully responsive to the prior Office Action because applicant did not argue the rejection of claims 2, 3 and 6 under 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Lah USP 6,660,131. Applicant arguing that Lah was withdrawn by the previous Examiner does not preclude a proper response to the non-final action issued by the instant examiner. Further, applicant is advised there is no "de facto" or even a "de jure" requirement that the examiners have to come to the same conclusion regarding an application of a reference as a previous examiner. The examiner has the right to re-visit a rejection or the application art against the claims, especially if it is not clear in the record why a reference was dropped or a ground of rejection. The examiner has the duty to make all appropriate rejections and can re-instate a rejection if deemed necessary and so long as the rejection is properly laid out for comment or argument by applicant. Applicant should argue and comment which addresses the non-final action as set forth in the office action of February 22, 2007. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
